

CONFLICT MINERALS DECLARATION

SIMALFA water based adhesives
KulKote temperature regulating technology

Alfa Adhesives, Inc. (aka SIMALFA or KulKote) is committed to sourcing responsibly and considers mining activities that fuel conflict as unacceptable; therefore, we require our suppliers to declare whether the material being supplied contains or requires a conflict mineral during its production.

Our brands, Simalfa and KulKote, DO NOT contain or require the use of conflict minerals during production.

Our efforts related to conflict minerals are aligned to the work of the Electronic Industry Citizenship Coalition® (EICO®) and Global e-Sustainability Initiative (GeSI). Their work includes the Conflict-Free Smelter Program and the Conflict Minerals Reporting Template. Please be advised that the current version of the Conflict Minerals Reporting Template, can be found, along with training materials, at www.conflictreesmelter.org. This template provides a common industry approach for the collection of sourcing information related to conflict minerals.
