Our Company

Founded in 1993, as an environmental adhesive and coating company.

Our mission from the start has been to create environmental technologies that enable clients to eliminate hazardous chemicals and contribute to a safer planet. What sets us apart from traditional adhesive and coating companies is that we do not manufacture or promote products that contain any known hazardous substances, such as solvents, and we have no intention of doing so in the future. We uphold stringent internal standards to safeguard the environment and the individuals who work with our products. To our knowledge, no other adhesive and coating manufacturer can make this claim.

Our primary area of expertise lies in developing products for flexible foam, textiles, and other porous materials.

Key industries served

Bedding, furniture, automotive, aerospace, medical, packaging, and foam fabrication

Legal name + address

Alfa Adhesives, Inc. (aka Simalfa or KulKote)
15 Lincoln Street, Hawthorne NJ 07506

KülKöte®

KulKote is a Temperature Regulating Technology. It's a proprietary coating consisting of water based polymers and Phase Change Materials (PCMs). It's an industrial product that is used in consumer goods. KulKote is typically applied to flexible foams, textiles, and/or fibers for the purpose of regulating body temperature.

For example, mattresses and pillows are either all foam or have foam components in them. Foams are prone to absorbing and holding body heat. As a result, the mattress/pillow gets (and stays) hot which makes for an uncomfortable night's sleep. By regulating the temperature (narrowing the temperature variations), one would enjoy a more restful night of sleep. Better sleep will result in a more fulfilled, productive, and healthier life. For athletes, this will obviously lead to a faster recovery and better performance.

Industries

Bedding, footwear, furniture, medical, pet products, sporting goods, and transportation.

Overview – English

General Information

ISO 9000 is a globally recognized collection of standards designed for quality management systems. Over 90 countries worldwide have embraced ISO 9000 as their national standards. When you engage with a business or service provider registered under the relevant ISO 9000 standard, you can trust that the quality of the product or service you receive will meet your expectations. The latest revision of the standard emphasizes the importance of quality objectives, continuous improvement, and monitoring customer satisfaction, thus enhancing customer confidence that their requirements and expectations will be fulfilled. These standards are applicable to organizations of all sizes and types, ensuring consistent implementation across the board.

Why we are ISO Registered?

Alfa Adhesives, Inc. is registered under ISO 9001 to establish and maintain a robust quality management system. We consider ourselves a "Service Company" rather than a conventional manufacturer, dedicated to producing top-quality products. Our commitment to customer satisfaction solidifies our reputation as a premier supplier. ISO certification plays a crucial role in strengthening our unwavering dedication to professionalism, consistency, creativity, innovation, and competitiveness, benefiting both our customers and employees. Ultimately, implementing ISO standards is a strategic business move, ensuring smart and sustainable practices.

Overview – Spanish

Información General

ISO 9000 es una colección de normas reconocidas a nivel mundial diseñadas para sistemas de gestión de calidad. Más de 90 países en todo el mundo han adoptado ISO 9000 como sus normas nacionales. Cuando interactúas con un negocio o proveedor de servicios registrado bajo la norma ISO 9000 correspondiente, puedes confiar en que la calidad del producto o servicio que recibas cumplirá con tus expectativas. La última revisión de la norma enfatiza la importancia de los objetivos de calidad, la mejora continua y el monitoreo de la satisfacción del cliente, mejorando así la confianza del cliente de que se cumplirán sus requisitos y expectativas. Estas normas son aplicables a organizaciones de todas las tamaños y tipos, asegurando una implementación consistente en todos los ámbitos.

¿Porque estamos registrados a ISO 9000?

Alfa Adhesives, Inc. está registrada bajo la norma ISO 9001 para establecer y mantener un sólido sistema de gestión de calidad. Nos consideramos una "Compañía de Servicios" en lugar de un fabricante convencional, dedicada a producir productos de alta calidad. Nuestro compromiso con la satisfacción del cliente consolida nuestra reputación como un proveedor líder. La certificación ISO desempeña un papel crucial en fortalecer nuestra dedicación inquebrantable a la profesionalidad, consistencia, creatividad, innovación y competitividad, beneficiando tanto a nuestros clientes como a nuestros empleados. En última instancia, la implementación de las normas ISO es un movimiento estratégico de negocio que garantiza prácticas inteligentes y sostenibles.
